## Explore with us!

Join us for a fun, inspiring, and restorative three days in the mountains. We'll share ideas and innovative practices, and explore cutting-edge questions in the field of health and wellness for older adults.

We'll enjoy innovative physical activities; cook natural foods collaboratively; and spend time in reflection, restoration, and deeper conversations.

- How can we reach underserved populations and support well-being for the full diversity of individuals across the lifespan?
- How can we actively combat stereotypes, bias, and stigma around age, appearance, or ability?
- How can we collaborate to increase our positive impact on our clients, communities and societies?

### SUMMIT DETAILS

- Single and shared rooms in cabins or lodge
- Shuttle to/from Denver Airport
- Affordable! We're determined to keep costs down — pricing starts at about \$500 (shared room)
